

## GL 16 S

Prod. No. **black 617011**

Prod. No. **white 617110**

**Elegant, old-fashioned style sensor lights in die-cast aluminum. Ideal as wall, freestanding or bollard lights for gardens, driveways or pathways.**

Their stylish, elegant design is just as reminiscent of the good old days as the hand-blown crystal shade and use of high-quality material: these lights are crafted from highly resistant, coated die-cast aluminum. The electronics are anything but old-fashioned.

### Settings

- The detection zone can be adjusted exactly to protection requirements at the site of installation by means of tilting, turning lenses and can also be limited using the shrouds provided.
- Exact time and twilight settings by means of control dial.
- Three-switch function on the light: Manual override / "OFF" / sensor mode
- Height can be varied by shortening the stem
- Hand-blown, bubble-effect crystal glass

### Installation advantages

- The height of the lamp can be reduced by shortening the aluminum tube.
- Can also be used on top of walls with the tube shortened to 50 cm.
