

RS 105 L

Slim-line elegance for ceilings and walls

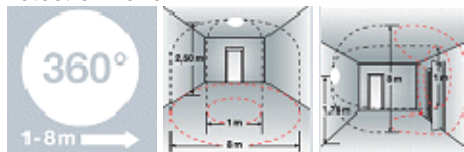

Form follows function – or function determines design. Particularly in spaces such as stairwells or corridors, lights often need to provide efficient illumination over as large an area as possible and yet take up very little space at the same time, i.e. hug the surface they are fitted to.

The RS 104/105/106 L-Series from STEINEL is equipped with modern G9 halogen lamps that not only require less space than conventional light bulbs but also deliver a pleasant light. This way, it has been possible to keep the design of these elegant lights extremely slim. The state-of-the-art HF sensor system is invisibly concealed inside the light. The three models in the series each come with a different hand-blown glass shade.

- Aesthetic choice of glass shades and trims
- for G9 halogen bulbs
- Matt-finish opal glass shade

Technical Data RS 105 L

Prod. No.	732318
Dimensions	Ø 320 x 95 mm
Voltage	230 - 240 V, 50 Hz
Output	2 x 40 W max. / G9
HF system	5.8 GHz (responds to the tiniest movement regardless of temperature)
Angle of coverage	360° with 160° angle of aperture
Transmitter power	approx. 1 mW
Reach	1 – 8 m, infinitely variable
Max. area covered	approx. 50 m ²
Time setting	5 sec. – 15 min.
Twilight setting	2 – 2000 Lux
Enclosure	IP 44
Protection class	II
Permanent light	–
Brightness control	–
Special features	other loads can be connected (100 VA max., e.g. bathroom / WC extractor fan or additional light) Subject to technical modifications
